Powerful Features of iFAX

Revolutionary fax service for both business and personal users

iFAX service is suitable for all kinds of business users, including agents, sales representatives, freelancers, especially those business travelers, as well as personal users.

Instant Voice Alert **全新**

Fax Alert function will send you instant voice alert via your mobile phone or email whenever you have got fax message.

Dual Fax-in, Double Assurance **全新**

With the Dual Fax-in function*, fax can be delivered to your designated fax machine and email box simultaneously. You will not lose any important message or business opportunity caused by the fault of fax machine or email server. Double guarantee keeps you free from the hassle of losing any important fax!

Fax Alert and Receive **全新**

iFAX features the outstanding Fax Alert & Receive function which enables users to obtain fax anytime+ in Hong Kong. After receiving a voice alert, users can instantly collect fax at any designated fax machine.

Total Privacy Protection

iFAX is equipped with an innovative Anonymous Fax Blocking function for rejecting all fax not showing caller fax number. It helps to avoid any nuisance or anonymous junk fax.

Enjoy Great Savings

As low as HK\$38 per month, you can enjoy great savings as you do not need to buy a fax machine, fax paper, toner as well as to pay rental charges for fax line.

Super Convenience

iFAX service enables users to receive fax through email. This is particularly convenient to frequent travellers without a fax machine around. Moreover, the fax message can be easily shared with other business partners or friends simply by forwarding the fax to their email accounts.

Environmental-friendly

Users can read the fax and decide whether to print it out or not. It helps avoid junk fax, fax line jam and wasting fax paper. iFAX service is definitely an environmental friendly solution!

"Code of Practice for Telecommunications Service Contracts" is not applicable to iFAX service.
